

Intentional Motherhood: connecting Abortion, Pregnancy, and Birth

Considering the full range of women's reproductive rights:

The right to affordable birth control. The right to parent. The right to choose abortion. The right to midwifery care. The right to determine a birth plan. The right to prenatal care.

Please join us for a book signing and discussion to explore the many connections between these issues.

Featuring

Judy Norsigian, Executive Director, Our Bodies Ourselves

Alexis Zepeda, Board Member, DC Abortion Fund

Jill Morrison, Senior Counsel, National Women's Law Center

Our Bodies Ourselves has provided indispensable information on women's health and sexuality for more than 40 years. Their newest book, *Our Bodies, Ourselves: Pregnancy and Birth* addresses the questions and needs of women during pregnancy, childbirth, and the "fourth trimester" of early motherhood.

The DC Abortion Fund is an all-volunteer, non-profit organization that makes grants and no-interest loans to DC regional women who cannot afford the full cost of an abortion. We cover the gap between what women can afford and the abortion cost, making the freedom of choice a reality for all women.
